

HCI Drain or Blowdown BALL VALVE w/ 3/4" GARDEN HOSE MALE CAP AND RETAINER MECHANICAL SPECIFICATIONS

These Drain and Blowdown ball valves by **HCI** are specifically designed for commercial and industrial applications for use in complementing the **Terminator System** product line. Like all **Terminator System** valves these components boast a state of the art hot forged brass body and hard chrome plated brass ball which insures reliable, leak-free performance.

These valves have an integrated 3/4" male garden hose end connection with a durable plastic retainer and brass cap. Featuring the "triple sealed stem" which utilizes a virgin PTFE gland packing and two Viton O-ring stem seals this valve ensures the most reliable and high cycle-life stem available anywhere. Using these valves in your system is the perfect compliment to the incredibly high standard set forth by all the other **Terminator System** products.
